*Did you enforce any of the measures described under CMM 4.04 (IUU List; 2016) paragraph 12?*

YES  NO .

*If so, please elaborate.*

China flagged vessels are prohibited to engage in any IUU activities, including transshipment and fishing processing operations with any vessels included on the IUU Vessels List. Furthermore, China has taken the following measures against IUU activities: 1) China has a "catch certificate" system. The customs will check the legality of some kinds of fisheries product imported into China territory, and if the product is related to IUU activities the import will be forbidden. 2) If a China flagged vessel was engaged in IUU activities, it would be put in the IUU list. All the vessels included in the list will lose the permission to fisheries, and any chartering of these vessels is prohibited. In the same time other companies are prohibited to provide them with any service, such as refueling, supplying food, water, etc. 3) Cooperation with other countries on IUU issues. Once China has the clue of any possible IUU activities, in which Chinese vessels might be engaged, we share the information with other countries and conduct investigations with them to clarify the facts.

## CMM4.05 Commission record of Vessels authorised to fish in the Convention Area

*Describe how you take into account the vessel and operator compliance history when considering whether or not to authorise a particular fishing vessel.*

China fisheries authority reviews the compliance status of each vessel and operator annually. For those who operate normally and regularly in compliance with the commission and the domestic measures, their authorization would be renewed; for those who do not implement the domestic and/or international regulations their fishing authorization would be suspended or even withdrawn.

*Describe the measures you have taken to ensure that you are able to take effective enforcement actions against the owners of vessels flying your flag should the need arise.*

Annually China fisheries authority carries out performance review of all the vessels and shipowners. If there is irregularities with the vessel or its shipowner (such as carrying out IUU fishing activities), sanction would be imposed.

*Do you maintain your own register of fishing vessels for the SPRFMO Area?*

YES  NO

*Does it contain all the necessary information (as described in Annex 1 of CMM 4.05 (Record of Vessels; 2016))?*

YES  NO

*Are there any reasons that this vessel information has not been collected?*
